SUMMARY

Computer Science undergraduate with strong fundamentals in programming, data structures, and object-oriented design. Actively building Android applications using Kotlin, Jetpack Compose, and MVVM architecture, with hands-on experience in Android Studio, Git, and debugging tools. Currently contributing to a real-world Android project under GDGC VIT Bhopal. Seeking a software development internship to apply problem-solving skills and gain industry exposure.

EDUCATION

Vellore Institute of Technology (VIT)

Bachelor's Degree in Computer Science (Pursuing) | CGPA: **9.13**

India
2024 - 2028

- Till 4th Semester (2nd Year)

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, Kotlin, JavaScript

CS Fundamentals: Data Structures, Algorithms, OOP, Problem Solving

Android Development: Kotlin, Jetpack Compose, XML, MVVM, Retrofit, Room Database, ViewModel, LiveData, Navigation Component

Cross-Platform & Web: React Native, Expo, React.js

Development Tools: Android Studio, Git, GitHub, VS Code

Operating Systems: Windows, Linux (Basic Commands)

PROJECTS

VConnect | Kotlin, Jetpack Compose, Firebase | GDGC VIT Bhopal

- Contributing to a collaborative Android app under GDGC VIT Bhopal that bridges the gap between seniors and juniors at VIT
- Enables students to post academic doubts, get answers from seniors, and interact meaningfully within the college community
- Working on UI screens and user interaction flows using Kotlin and Jetpack Compose
- Collaborating with a team using Git and GitHub for version control and code reviews

Scientific Calculator | Kotlin, Jetpack Compose, MVVM

[GitHub](#)

- Built a fully functional scientific calculator Android app with basic and advanced mathematical operations
- Implemented DEG/RAD mode switching and a reusable calculation history feature
- Designed a clean glass-style UI using Jetpack Compose following MVVM architecture for smooth performance

ThreeTab App | Kotlin, Jetpack Compose

[GitHub](#)

- Developed a multi-tab Android application using Kotlin and Jetpack Compose with clean navigation between tabs
- Demonstrated component reuse, state management, and modular UI design principles

Programming & DSA Practice | C++, Java

- Solved algorithmic problems in C++ and Java focusing on arrays, strings, recursion, and STL
- Improved problem-solving efficiency through regular coding practice

CERTIFICATIONS

Programming Fundamentals in C++ | Java Programming Basics | Python Programming Fundamentals | Android Development Basics (Kotlin)

SOFT SKILLS

Communication: Clear articulation of technical concepts to diverse audiences

Problem Solving: Analytical thinking and structured approach to debugging and algorithmic challenges

Teamwork: Collaborative mindset with experience working in group projects and peer programming

Self-Learning: Proactive in picking up new technologies and frameworks independently

Time Management: Ability to manage multiple tasks and meet deadlines effectively
